# iMAPARK

YOUR INTELLIGENT MANAGEMENT PARKING

Don't stress out thinking where you will park your car in the city!

## FIND

Find parking. Check availability and pricing in real-time.

## RESERVE

Reserve and make sure that a spot is available when you arrive.

## PAY

Easy pay for the service with the Integrated Payment Solution.

## PARK

The road stud will change color. Check-in when you arrive. Park stress-free, enjoy the city and Check-out.

## REQUEST. ARRIVE. PARK.

iMAPARK is an **on-street smart parking system** that helps drivers **find** and **PRE-RESERVE** an available parking spot by means of **light signals - road studs - on the floor, electronic displays** and **mobile app**. Each parking spot has a **light signal** and a **sensor** that send information to the **Gateway** through wireless network. The light signal - road stud - will be visible from the road even when a car is parked and **will inform drivers about the occupancy status of the parking spot**.

iMAPARK is a solution for **drivers**

iMAPARK is a solution for **parking management companies**

iMAPARK is a solution for **the city**
