

Generalities:

The graphical cross consists entirely of green LEDs, enabling the visualization of static or animated graphics, text and other information such as time, date and temperature.

The programming of the cross is done through quite intuitive software.

Technical characteristics:

Led color	Green
Leds type	Oval 5mm (3200-4000mcd)
Leds number	2560 (double-sided)
Ambient	Outdoor
Brightness control	Automatic/Manual

Mechanical characteristics:

External dimensions	900x900x160mm
External box	Aluminum
Ventilation system	Forced by fan
IP Protection	IP45

Electrical characteristics / Communication:

Power	220/240Vac 50/60Hz
Consumption	80 W average 200 W maximum
Control	By software
Communication Protocol	Wireless
