YOUR SAFETY EYES

FLEXIBLE BOLLARD FOR CROSSWALKS

YOUR SAFETY EYES
SR-CITY-BALI-TL has been developed thinking about distracted walkers. The light on the top of the bollard is at the angle of view of a pedestrian who is looking at a cellphone. Connected with the pedestrian crossing traffic lights, the LED on top of the bollard changes from red to green – according to the pedestrian crossing traffic lights –, alerting pedestrians if it is safe to cross the street or not.

**KEY FEATURES**
- Flexible bollard with memory effect and impact resistance
- Ideal for installation in entries of pedestrian crosswalks with traffic lights
- Specially developed to alert distracted walkers
- UV protection for greater durability
- 3M reflective tape with high reflectivity for greater visibility at night
- Possibility to add ribbons with glass reflector elements on bottom
- Over temperature protection
- Smart brightness management
- Easy installation and replacement

**FEATURES**
- **Main Body/Base Material:** PU and Aluminum
- **LED's Type:** Ring: 5mm | Top: Power LEDs
- **LED's Color:** Red and Green
- **Main Body/Base Colors:** Anthracite Grey (RAL 7016)
- **Reflective Tape:** 3M Reflective Tape
- **Reflective Tape Colors:** White. Other colors available by request
- **Glass Reflector Ribbons Colors:** Black with white crystals

**ELECTRICAL FEATURES**
- **Power Supply:** 24V DC
- **Current Consumption:**
  - Top LEDs: Red: 139 mA; Green: 200 mA
  - Ring LEDs: Red: 200 mA; Green: 200 mA
- **Working Temperature:** -25 ºC to +85ºC

---

For this option the wires should be with normally open contacts.
